## AMENDMENTS TO THE CLAIMS

AUG 1 5 2007

- (Previously presented) A corner finishing trim assembly for walls comprising:
  - a) a first extruded polymer piece;
  - b) a second extruded polymer piece,
    wherein said first polymer piece and said second polymer piece are
    welded together to form an angled joint and wherein said first and
    second pieces include flanges for slidably receiving a first trim piece and
    a second trim piece at the corners of a wall.
- 2. (Original) The trim assembly of claim 1, wherein said assembly further comprises a laminate.
- 3. (Original) The trim assembly of claim 2, wherein said laminate is a foil.
- 4. (Original) The trim assembly of claim 3, wherein said laminate is a UV protective wood grain foil.
- 5. (Original) The trim assembly of claim 2, wherein said laminate is a white foil.
- 6. (Original) The trim assembly of claim 1, wherein said first and second extruded polymer pieces are constructed of materials selected from the group consisting of polyvinyl chloride, high-density polyethylene, low-density polyethylene, polypropylene, and polymethyl methacrylate.
- 7. (Original) The trim assembly of claim 1, wherein said first and second polymer pieces are welded together using a thermoplastic welding process.

## 8-13. (Withdrawn)

- 14. (Currently Amended) A corner finishing trim assembly for walls comprising:
  - a. a first extruded polymer trim piece;
  - b. a second extruded polymer <u>trim</u> piece,
    wherein said a first <u>lapped</u> trim piece and <u>said</u> a second <u>lapped</u> trim
    piece are friction fit into the corner finishing trim assembly and wherein
    said first and second <u>trim</u> pieces include flanges for slidably receiving
    [a] <u>said</u> first <u>lapped</u> trim piece and [a] <u>said</u> second <u>lapped</u> trim piece at
    the corners of a wall, wherein said first and second polymer <u>trim</u> pieces
    [are C-shaped] <u>have a concave shape</u>.
- 15. (Original) The trim assembly of claim 14, wherein said assembly further comprises a laminate.
- 16. (Original) The trim assembly of claim 15, wherein said laminate is a foil.
- 17. (Original) The trim assembly of claim 16, wherein said laminate is a UV protective wood grain foil.
- 18. (Original) The trim assembly of claim 15, wherein said laminate is a white foil.
- 19. (Currently Amended) The trim assembly of claim 14, wherein said first and second extruded polymer <u>trim</u> pieces are constructed of materials selected from the group consisting of polyvinyl chloride, high-density polyethylene, low-density polyethylene, polypropylene, and polymethyl methacrylate.

20. (Currently Amended) The trim assembly of claim 14, wherein said first and second polymer trim pieces are welded together using a thermoplastic welding process.
